<b>INTERNSHIP [24 weeks]</b>					<b>12</b>

According to the requirements of the Bologna Declaration that apply to all European universities, a study programme must be structured in the form of modules. A module comprises one or more learning units. EHL offers 2 types of modules: integrated modules and non-integrated modules. Non-integrated modules bring together a set of independent courses. Integrated modules include a set of courses that all treat the same central issue.

#### Definition of the level of modules according to the Bologna Declaration:

B – Basic level course: Module introducing fundamental concepts of the field  
 I – Intermediate level course : Module expanding on fundamental concepts of the field  
 A – Advanced level course : Module developing the core competencies of the field  
 S – Specialised level course : Module developing the specialised competencies of the field

#### There are three kinds of modules:

C – Core course :Module covering the main field of study  
 R – Related course :Module servant à étayer la discipline principale  
 M – Minor course :Module facultatif ou complémentaire
