According to the requirements of the Bologna Declaration that apply to all European universities, a study programme must be structured in the form of modules. A module comprises one or more learning units. EHL offers 2 types of modules: integrated modules and non-integrated modules. Non-integrated modules bring together a set of independence of the comprise of th dent courses. Integrated modules include a set of courses that all treat the same central issue.

#### $\label{lem:condition} \mbox{Definition of the level of modules according to the Bologna\ \mbox{Declaration:}}$

- $\ensuremath{\mathsf{B}}$  Basic level course: Module introducing fundamental concepts of the field
- I Intermediate level course : Module expanding on fundamental concepts of the field A Advanced level course : Module developing the core competencies of the field
- S Specialised level course : Module developing the specialised competencies of the field

- $\ensuremath{\text{C}}$  Core course : Module covering the main field of study
- R Related course : Module servant à étayer la discipline principale
- M Minor course :Module facultatif ou complémentaire

According to the requirements of the Bologna Declaration that apply to all European universities, a study programme must be structured in the form of modules. A module comprises one or more learning units. EHL offers 2 types of modules: integrated modules and non-integrated modules. Non-integrated modules bring together a set of independent courses. Integrated modules include a set of courses that all treat the same central issue.

## Definition of the level of modules according to the Bologna Declaration:

- B Basic level course: Module introducing fundamental concepts of the field
  I Intermediate level course: Module expanding on fundamental concepts of the field
  A Advanced level course: Module developing the core competencies of the field
  S Specialised level course: Module developing the specialised competencies of the field

- C Core course :Module covering the main field of study R Related course :Module servant à étayer la discipline principale M Minor course :Module facultatif ou complémentaire
