## COMPARISON OF BIDS

Prices shall be opened in respect of only the techno-commercially acceptable bidders whose bids have been found to be substantially responsive.

A substantially responsive bid is one that meets the terms and conditions of the Tender and / or the acceptance of which bid will not result in indeterminate liability on GAIL. After establishing the eligibility of the bidders and bringing the offer of all the bidders technically and commercially at par, recommendation shall be made for opening of price bids.

The discrepancies in rate filled for various items shall be resolved in the following manner:-

- (i) When there is a difference between the rates in figures and words, the rate which corresponds to the amount worked out by the contractor (by multiplying the quantity and rate) shall be taken as correct.
- (ii) When the rate quoted by the contractor in figures and words tallies but the amount is incorrect, the rate quoted by the contractor shall be taken as correct and not the amount and the amount corrected.
- (iii) When it is not possible to ascertain the correct rate, in the manner prescribed above, the rate as quoted in words shall be adopted and the amount worked out, for comparison purposes.
- (iv) When the quoted rates and amount are given only in figures, if a discrepancy is observed in rates and amount (by multiplying the quantity and rate), unit rate as quoted by the bidder shall be taken as correct.
- (v) Bidders are required to quote for all the items as per SOR. In case it is observed that any bidder has not quoted for any item in the Schedule of Rates (such unquoted item not being in large numbers), the quoted price for the purpose of evaluation shall be considered as the maximum rate quoted by the remaining bidder for such items.  
  
If after evaluation, such bidder is found to be the lowest evaluated bidder, the rates for the missing item shall be considered as included in quoted bid price.
- (vi) If the estimated price impact of the unquoted items is more than 10% of the bidder's quoted price, the above provision shall not be applicable and such bid shall be rejected.

## **PRICE EVALUATION METHODOLOGY OF BID**

Based on the evaluation of techno-commercially qualified bidders, Price Bids will be evaluated on lowest cost basis to GAIL (L-1 offer) i.e. considering total quoted price including Service Tax and all other taxes & duties etc. as per "Schedule of Rates".

The evaluated Contract Value of the bidders shall include total value including material and services, inclusive of all taxes, duties, levies etc. as applicable under this contract.

Based on the evaluation of techno-commercially qualified bidders, the job will be awarded to L-1 bidder.

The bidders are advised not to offer any discount/rebate separately and to offer their prices in the SOR after considering discount/rebate, if any.

If any unconditional rebate offered in the quoted rates, the same shall be considered in arriving at the net tendered amount. No cognizance shall be taken for any conditional discount for the purpose of evaluation of the bids.

If any bidder offers suo-moto discount after opening of un-priced bids but before opening of price bids, such reduction / discounts shall not be considered for evaluation. However, if the bidder happens to be the lowest evaluated bidder without considering such discount then the benefit of discount will be availed at the time of award of work.

In the event as a result of techno-commercial discussions or pursuant to seeking clarifications / confirmations from bidders, while evaluating the un-priced part of the bid, any of the bidders submits a sealed envelope stating that it contains revised prices; such bidder(s) will be requested to withdraw the revised prices failing which the bid will not be considered for further evaluation.
