

3) Click on the *Internet Banking*.

The screenshot shows the Syndicate Bank website interface. At the top, there is a navigation bar with links for Products, Services, International Business, Apply Online, Rates and Charges, Financial Inclusion, Compliance, Announcements, and Downloads. A search bar is located on the right side of the navigation bar. Below the navigation bar, there is a main banner area with a large image of a woman in a white lab coat and a stethoscope. The banner text reads "Nurturing your Business Dreams" and "SyndMSE". Below the banner, there is a section for "Collateral Free Credit up to ₹ 100 lakh" and "Maximum Repayment period of 7 to 10 years including moratorium period." A dropdown menu is open, showing various services. The "Internet Banking" option is highlighted with a blue circle. Other options in the menu include Aadhar Seeding, Mobile Banking, Swi-banking, TAB Banking, NEFT/RTGS, Syndicate Global Cards, Online Tax Payment, Online Shopping and Utility Bill Payment, eFiling of Income Tax Return, and Mobile Application. Below the banner, there is a row of icons for NET BANKING, MOBILE APPLICATION, INTEREST RATES, and BRANCH/ATM LOCATOR. Below this row, there are several smaller images and text boxes for ADHAR, MOBILE BANKING, SME BANKING, CREDIT CARD, TRANSATION DETAILS, GRIEVANCE REDRESSAL, and TRAIN TICKET BOOKING. At the bottom, there are links for Customer Care, Financial Result, Shareholders Info, and Announcements.

SyndProtect - Two Factor Authentication

As a valued customer, we always look forward to providing you with the best of the facilities for transacting online through our Internet Banking Channel. As part of our sincere efforts to educate our customers on fraudulent transactions happening through the Internet, we have taken various steps like sending Security Alerts via e-mail and SMS, publishing the Safety Tips for initiating Internet Banking transactions in our Bank's website and in our Internet Banking Login Page.

We are extremely happy to inform you that Bank has now implemented SyndProtect for its Internet Banking Application using RSA SecurID product. This will replace the traditional Transaction Password and will boost the security of online transactions by challenging fraudsters who purport to be genuine and attempt to siphon off our customers' money by adopting different methods like phishing, "man-in-middle", "man-in-browser", impersonation etc, to name a few.

SyndProtect product comes with a Hardware/Software Token which generates and displays a Six Digit Token-Code at a frequency of every 60 seconds. Each Token-Code can be used only once. Apart from this, you will be able to set your own PIN (of 4 digits, numeric values only). The objective of this product is to replace the traditional Transaction Password with a Passcode (PIN + Token-Code).

While SyndProtect Hardware Tokens are USB drive-like devices which display the token-codes, SyndProtect Software-Tokens can be installed in the below platforms:

Personal Desktop Computer/Laptop/Netbook with

- ✖ Windows Operating System

Smart Phones with

- ✖ Google Android 2.1 and above
- ✖ Apple iOS 4.3 and above
- ✖ Windows Phone 7.5 and above
- ✖ BlackBerry OS 4.5 and above

For installing the SyndProtect Software Tokens in Personal Desktop Computer/Laptop/Netbook with Windows Operating System, please follow the below steps:

- ✖ **Download** the Base Installation Software of RSA SecurID.
- ✖ Follow the **User Manual** for installing RSA SecurID Software for generating the Token-Codes.

Pre-requisites to use SyndProtect Software Token:

- ✖ Customer should have applied for Internet Banking and should have
