**PROGRAMME SPECIFICATIONS: PHARMACEUTICS**

Faculty	Faculty of Pharmacy (FPH)
Department	Department of Pharmaceutics
Programme	M.Pharm. in Pharmaceutics
Dean of Faculty	Dr. V. Madhavan
HOD	Dr. S. Bharath

**1. Title of the Award**

M. Pharm. in Pharmaceutics

**2. Modes of Study**

Full-Time  Part-Time

**3. Awarding Institution /Body**

M.S.Ramaiah University of Applied Sciences – Bangalore, India

**4. Joint Award**

--

**5. Teaching Institution**

Faculty of Pharmacy (FPH)

M.S.Ramaiah University of Applied Sciences – Bangalore, India

**6. Month of Creation of Programme Specifications**

February 2017

**7. Programme Approval Month by the Academic Council of MSRUAS**

April 2017

**8. Next Review**

March 2019

**9. Programme Approving Regulatory Bodies and Date of Approval**

Pharmacy Council of India (PCI), New Delhi

**14. Rationale for the Programme**

There are many drug moieties with pharmacological properties, but needs special measures to achieve desired therapeutic activity at the site of action. Pharmaceutics is the science of dosage form design that converts drugs and plant based intermediates into medication to be used safely and effectively by patients. The Indian pharmaceutical industry currently tops the chart amongst India's science-based industries with wide ranging capabilities in the complex field of drug manufacture. The new drug launches, new drug filings, and Phase II clinic trials throughout the year create the thrust for competitive and qualified Postgraduates in Pharmaceutics. Taking into consideration the excellent opportunities available in the field of pharmaceutics, post graduate course in M. Pharm. in Pharmaceutics is being offered.

The M.S. Ramaiah College of Pharmacy, now a constituent of MSRUAS as Faculty of Pharmacy has been in existence for more than two decades. Over the years, Faculty of Pharmacy of MSRUAS has grown and evolved as one of the Premier Institutions in the country. The University infrastructure, interdisciplinary facilities with latest technologies will empower the students to pursue high quality research with creativity and innovation. During the last two decades, the institution has produced over 1000 graduates and 120 Post graduates. The presence of other Faculties of Applied Sciences of the University will facilitate the students to experience more than the conventional curriculum.

Faculty of Pharmacy of MSRUAS offering M. Pharm programme in Pharmaceutics featured with semester pattern curriculum is aimed to emphasize the concepts in the design of advanced novel pharmaceutical dosage forms. Importance will be given to research projects based on industrial needs and in terms of novelty for patenting the application. The curriculum is structured to impart the students to take independent professional responsibilities and acquire necessary skills to compete with their global counterparts.

**15. Programme Aim**

Masters degree programme in Pharmaceutics is aimed to achieve the Postgraduates an advanced knowledge both in theoretical and applied topics; high order skills in analysis, critical evaluation and professional application; think differently and independently to solve complex problems related to research and pharmaceutical processes.

## 16. Programme Objectives

The objectives of the programme are:

1. To educate the students extensively and efficiently with strong theoretical and practical knowledge
2. To train the students in terms of rational and critical analysis and troubleshooting the problems effectively
3. To create research interest in the minds of students so that they take up research as a career with passion
4. To provide a general perspective and opportunities for a career in Pharmaceutics
5. To mould the students for a lifelong learning skills and make them work as a team to achieve the goal

## 17. Intended Learning Outcomes of the Programme

The intended learning outcomes are listed under four headings:

1. Knowledge and Understanding,
2. Cognitive Skills
3. Practical Skills
4. Capability/ Transferable Skills.

### 17.1 Knowledge and Understanding

After undergoing this programme, a student will be able to:

- KU1: Discuss various preformulation studies for a new drug entity
- KU2: Distinguish concept of various dosage forms
- KU3: Explain novel approaches in drug delivery systems
- KU4: Interpret the fate of a drug in the biological system

### 17.2 Cognitive Skills

After undergoing this programme, a student will be able to:

- CS1: Design and optimize new experiments
- CS2: Discover a new drug delivery system
- CS3: Develop the process for dosage form development
- CS4: Design a protocol for validation of a dosage form

**17.3 Practical Skills**

After undergoing this programme, a student will be able to:

- PS1: Formulate and evaluate different types of dosage forms
- PS2: Use appropriate equipments for pharmaceutical processes
- PS3: Validate the stability of various dosage forms
- PS4: Predict the shelf life of the formulation with stability studies reports

**17.4 Capability/Transferable Skills**

After undergoing the programme, a student will be able to:

- TS1: Develop technical report after analysis of data and the process or procedure
- TS2: Perform under constraints to meet the given targets
- TS3: Work as a team and team leader to enhance the productivity of the group and the organization
- TS4: Communicate the concepts, ideas and viewpoints through effective oral and written communication skills

**18. Programme Structure**

The following are the courses a student is required to successfully complete for the award of the degree. The course is delivered as per the Time-Table for every batch.

<b>SEMESTER – I</b>

## 19. Programme Delivery Structure- Full-Time

The programme is delivered from Monday to Saturday of the week.

Normally from 9 AM to 1PM and 2 PM to 5 PM from Monday to Friday and 9AM to 1PM on Saturday

## 20. Teaching and Learning Methods

The programme delivery comprises of :

1. Face to Face Lectures using Audio-Visuals
2. Group Discussions, Presentations
3. Demonstrations
4. Guest Lectures
5. Laboratory/Field work/Workshops
6. Industry Visit
7. Seminars
8. Project Exhibitions
9. Case studies
10. Concept mapping

## 21. Mandatory Courses

Mandatory course/s can be any one or more of the following –

### **MMC501 Participation/Presentation in Research Forum**

A student can participate /submit a paper and make a presentation in a conference, seminar, workshop, training programme or symposium related to the programme specialization which is approved by the department.

### **MMC502 Publication in National/International Journal (Referred & Abstracted)**

A student can publish a review or research paper in a reputed scientific journal. The proof of submission and a copy of the paper shall be submitted to the department.

### **MMC503 Academic/Research award from State/National/International Agencies**

A student with extraordinary accomplishment can participate and get academic excellence/research excellence awards from conferences/competitions/recognized affiliated bodies and agencies.

**MMC301 Group Project**

A group project shall have up to 5 interdepartmental students within the faculty. The purpose of group project is that the group should be able to design/develop/evaluate a drug moiety, dosage form, product, data or process in their area of specializations. The students are required to develop a report for assessment and also need to demonstrate the final outcome. The IPR rights of all such work lies with the University only. The students are required to sign an agreement before the commencement of the project. The project should be approved by a committee of examiners before the start of the project. Students can choose a project from the database of projects available with the concerned department. The detailed procedure and evaluation procedure is available in the Operation Manual / I - portal.

**22. MPH106 Seminar/ Assignment****&  
MPH206**

**Assignment:** Every candidate shall submit a word processed assignment for individual theory courses in their first and second semester specialization.

**Seminar:** Every candidate shall present on the submitted assignment topic for individual theory courses in their first and second semester specialization.

The detailed procedure and evaluation procedure is available in the Operation Manual /I- portal.

**23. MPJ302 Journal Club****&  
MPJ402**

Every student shall critically appraise the research article of their specialization published in reputed journals. Students are trained for inquiry based learning and critical thinking skills. Students shall access journals adopting search engines and made to collect relevant data, analyze and comment on the findings with the submission of the document evidence and present on the same for assessment. The detailed procedure and evaluation procedure is available in the Operation Manual/ I- portal.

**24. MPR302 & MPR403****Dissertation/Research Work**

Every candidate shall carry out work on an assigned research project under the guidance of a recognized Postgraduate teacher in the third and fourth semester, the result of which shall be written up and submitted in the form of a dissertation.

Work for writing the dissertation is aimed at contributing to the development of a spirit of enquiry, besides exposing the candidate to the techniques of research, critical analysis, acquaintance with the latest advances in medical science and the manner of identifying and consulting available literature.

The dissertation shall be examined by a minimum of two examiners; one internal (Mentor) and one external examiner (outside the University).

**Part – B: Sessional Examination: 30 Marks**

Two sessional examinations (each for 30 Marks with six hour duration) will be conducted. Average marks of the two sessionals will be computed for sessional examination marks.

**Component -2 Semester End Practical Examination: 100 Marks**

**Practical Examination:** 100 Marks with six hours of duration. Practical examination shall also consist of a viva –voce (Oral) examination.

The assessment questions are set to test the learning outcomes. In each component a certain learning outcome is assessed.

Note: For more details on the break-ups, please refer to the Course Specifications

A student is required to score an overall 50% for successful completion of a course and earn the credits.

Note: Final marks awarded in each of the courses will be confirmed only after SAB/PAB as explained in Academic Regulations of M. Pharm. Programme.

**Assignment & Seminar**

The detailed procedure and evaluation procedure is available in the Operation Manual /

Student Handbook/Academic Regulations.

### Journal Club

The detailed procedure and evaluation procedure is available in the Operation Manual / Student Handbook/Academic Regulations.

### Group Project

The detailed procedure and evaluation procedure is available in the Operation Manual / Student Handbook/Academic Regulations.

### Mandatory Courses

The credit points assigned for extracurricular and/or co-curricular activities shall be given by the Dean of the Faculty and the same shall be submitted to the University.

Name of the activity	Maximum credit points Eligible/Activity
Participation in National Level Seminar/Conference/Workshop/Symposium/ Training	01
Participation in International Level outside India Seminar/Conference/Workshop/Symposium/ Training Programs (related to the specialization of the student)	02
Academic Award/Research Award from State Level/National Agencies	01
Academic Award/Research Award from International Agencies	02
Research / Review Publication in National Journals (Indexed in Scopus / Web of Science)	01
Research / Review Publication in International Journals (Indexed in Scopus / Web of Science)	02

### Dissertation/Research Work

1. Every candidate shall carry out work on an assigned research project under the guidance of a recognized Postgraduate Teacher, the result of which shall be written up and submitted in the form of a dissertation.

2. Work for writing the Dissertation is aimed at contributing to the development of spirit of enquiry, besides exposing the candidate to the techniques of research, critical analysis, acquaintance with the latest advances in pharmaceutical/medical sciences and the manner of identifying and consulting available literature. Dissertation shall be submitted as per the notified time schedule mentioned in the Academic calendar / student hand book.

3. The Dissertation and viva-voce shall be evaluated by two examiners, one Internal and one External examiner appointed by the University.

**Scheme of Evaluation of Dissertation book:**

Objective(s) of the work done	: 50 Marks
Methodology adopted	: 150 Marks
Results and Discussions	: 250 Marks
Conclusions and Outcomes	: 50 Marks
<b>Total</b>	<b>: 500 Marks</b>

**Scheme of Evaluation of Presentation:**

Presentation of work	: 100 Marks
Communication skills	: 50 Marks
Question and answer skills	: 100 Marks
<b>Total</b>	<b>: 250 Marks</b>

A student is required to score a minimum of 50% overall for successful completion of Dissertation and earn the corresponding credits.

**Supplementary/Re-registration examination and improvement of sessional marks**

The eligibility criteria and procedures for supplementary examination and improvement of sessional marks are as per the Pharmacy Council of India (PCI) norms and as indicated in the Academic Regulations governing this programme.

**26. Attendance**

A student is required to have a minimum of 85% attendance to be eligible to appear for the examination. Any condoning is as per the Academic regulations of M. Pharm. programme.

**27. Award of Class**

As per the Academic Regulations for M. Pharm. Programme

**28. Student Support for Learning**

Students are given the following support:

1. Course Notes
2. Reference Books in the Library
3. Magazines and Journals
4. Internet Facility
5. Computing Facility
6. Laboratory Facility
7. Workshop Facility
8. Staff Support
9. Lounges for Discussions
10. Any other support that enhances their learning

## 29. **Quality Control Measures**

The following are the Quality Control Measures:

1. Review of Course Notes
2. Review of Question Papers and Assignment
3. Student Feedback
4. Moderation of Assessed work
5. Opportunities for the students to see their assessed work
6. Review by External Examiners and External Examiners Reports
7. Staff Student Consultative Committee Meetings
8. Student Exit Feedback
9. Subject Assessment Board
10. Programme Assessment Board

**32. Co-curricular Activities**

Students are encouraged to take part in co-curricular activities like seminars, conferences, symposium, paper writing, attending industry exhibitions, project competitions and related activities to enhance their knowledge and network.

**33. Cultural and Literary Activities**

To remind and ignite the creative endeavors annual cultural festivals are held and the students are made to plan and organize the activities

**34. Sports and Athletics**

Students are encouraged to develop a habit of playing games on daily basis and also take part in annual sports and athletic events.
