

# **LAUNCHING OF CERTIFICATE/DIPLOMA COURSE IN NGO MANAGEMENT IN ORIYA MEDIUM BY DDCE, UTKAL UNIVERSITY IN COLLABORATION WITH UNAIDS.**

## **INTRODUCTION:**

The World Bank defines “ NGOs as private organization that pursue activities to relieve suffering, promote the interest of the poor, protect the environment, provide basic social services, or undertake community development.” Defining NGOs is problematic and a description may be more useful. The Cardoso Report (UN Report on Civil Society Involvement) offers the following description. “All organizations of relevance to the United Nations that are not Central governments and were not created by inter governmental decisions, including associations of business, Parliamentarians and local authorities. NGOs has become shorthand for public-benefit . NGOs – a type of civil society organization that is formally constituted to provide a benefit to the general public or the world at large through the promotion or advocacy on services. They include organizations devoted to environment development, human rights and peace and their international networks.”

Since 1950’s steadily NGOs have become important components of developmental strategy world over. From local to international level NGOs are involved in developmental activities. Advocacy, implementation, health and hygiene, life-skill development, economic alternatives and awareness etc. are important aspects of NGO activities. Number of NGO are steadily increasing. They have become partners of international , national , regional and local governance mechanism in bettering the world. The quality of manpower in NGOs determine to an extent the quality of world bettering mechanism, process and strategy. Improving of the quality of manpower of NGOs working at grass root level is of great importance. The leaders , the founders, the policy makers, the funding organization of NGOs may be aware , conscious and knowledgeable but the vast majority of persons working at the lower rungs of NGOs sector need education, awareness, sensitization and skills to be better equipped to serve the cause of their organization. The objectives of the course is precisely to meet this need.
