...A Message of Welcome from the Dean...

We have taken upon our shoulders the task of meeting the following objectives. By the time you join, we would have refined our processes to see that you do significantly benefit from these efforts of ours.

- *Conceptual clarity* on the part of all students on the *fundamentals of business*
- Extra *emphasis* on *students who are weak*
 - When you join GUDMS, you can be sure you will not be left out. If you feel you will get lost in a premier Business School, do join us. *We will see that we add value to you and make you feel confident.*
- *Familiarity with industry practices*: For almost all courses, you will be doing industry-based assignments. Most of these are going to be with small and medium enterprises, where you learn the grass root industry practices, *the mundane*. You are not going to get lost in a large organization making you wonder what you learned.
- There are going to be *quizzes and tests every week on contemporary issues* that will keep you on toes on what is happening in the world around you beyond learning business.
- *Each and every student will be involved in a managerial task in GUDMS* and one of the teachers will be your mentor and you will also be graded on the efficiency and effectiveness with which you undertake the task.

It has been rewarding as well as great fun for us teaching in such an MBA program. I am sure you will also find it the same way.

With warm regards,

A. Sreekumar.

"You will begin to touch heaven, Jonathan, in the moment that you touch perfect speed. And that isn't flying a thousand miles an hour, or a million, or flying at the speed of light. Because any number is a limit, and perfection doesn't have limits. Perfect speed, my son, is being there."
