

MBA Boot Camp

We want to ensure our Master of Business Administration (MBA) students are well prepared for academic success. Rather than assume a set of undergraduate courses you may have taken (and perhaps several years ago) do the trick, we developed something much more focused and much more deliberate: MBA Boot Camp.

Boot Camp consists of two components:

1. **Pre-Boot Camp Conditioning:** A short series of self-paced lessons, smartly designed online, will help you understand financial accounting, financial statements, and business statistics. For some of you, this is a helpful review. For others, this is a convenient, effective introduction to business management basics.
2. **Boot Camp Workshop:** Having completed the conditioning lessons, you will join your cohort for an applied workshop on campus. These six workshop sessions stress problem solving, teamwork, and professional communication – all leading to a proficiency examination.

Together, the conditioning lessons and the workshop comprise our MBA Boot Camp, which is required for all newly admitted MBA students at IUPUC. A score of 75 percent or higher on the proficiency examination is necessary to move on to Module 1.

MBA Boot Camp is also an important forum for new student orientation and for team-building and personal interaction with other students in your cohort.
