GENERAL DISCLOSURES APPLICABLE TO ALL SCHEMES

Risk Profile of all schemes	<ul style="list-style-type: none"> • Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. • The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information. • Redemption by the Unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, their directors or their employees shall not be liable for any tax consequences that may arise. • The tax benefits described in the SID are as available under the present taxation laws and are available subject to relevant condition. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any • Investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor / Unit holder is advised to consult his/her/its own professional tax advisor. • Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns, which are not in line with the performance of the designated index. Such deviation in returns may arise due to several factors including but not limited to: <ol style="list-style-type: none"> i. Any delay experienced in the purchase or sale of shares due to prevailing liquidity in the market, settlement and realization of sales proceeds and the registration of any security transfer and any delays in receiving cash and scrip dividends and resulting delays in reinvesting them. ii. The CNX Nifty Junior Index reflects the prices of securities at close of business hours. However, the Fund may buy or sell securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the National Stock Exchange (NSE). iii. IISL undertakes a periodic review of the stocks that comprise the CNX Nifty Junior Index and may either drop or include new securities. In such an event the Fund will endeavour to reallocate its portfolio but the available investment / disinvestment opportunities may not permit precise mirroring of the CNX Nifty Junior Index immediately. iv. The potential for trades to fail, which may result in the particular scheme not having acquired shares at a price necessary to track the index. v. The holding of a cash position and accrued income prior to distribution and accrued expenses. vi. Disinvestments to meet redemption, recurring expenses, dividend payout etc. as elsewhere indicated in this Scheme Information Document. <p>The Tracking Error that may arise in this scheme is expected to be around 2% on an annualized basis. This is only an estimate and is expected to vary according to the recurring expenses incurred by the scheme and other factors detailed above.</p> • The Mutual Fund is not assuring any dividend nor is it assuring that it will make any dividend distributions. All dividend distributions are subject to the availability of distributable surplus and would depend on the performance of the scheme and will be at the discretion of the AMC.
