- 1.4 The Board of Governors may, on the recommendation of the Senate, change any or all parts of this Regulation at any time considered appropriate by the Senate.

2. Academic Calendar

- 2.1 The academic session is divided into two semesters each of approximately 20 weeks duration: an Autumn Semester (July-December) and a Spring Semester (December-May).
- 2.2 The Senate-approved schedule of academic activities for a session, inclusive of dates for registration, mid-semester and end-semester examinations, inter-semester breaks etc., shall be laid down in the Academic Calendar for the session. The Academic Calendar shall strive to provide for a total of about 90 working days in each semester.

3. Admission

- 3.1 Admission to all courses will be made in the Autumn Semester of each session, at the First Year level, through a Joint Entrance Examination (JEE) conducted by one of the IITs every year by rotation under the supervision of a Joint Admission Board, which comprises of representatives from all the IITs.
- 3.2 Besides the successful JEE candidates, a specified number of foreign nationals and Indian nationals residing abroad for at least a period of 5 years, satisfying the norms approved by the

Senate, and selected by the Joint Admission Board in accordance with the policy laid down by the Government of India may be admitted directly to the first year of any of the courses covered by this Regulation.*

- 3.3 In special cases the Institute may admit students to a course on transfer from other IITs. Such admission may be made at any level considered appropriate except at first year level.
- 3.4 Provisions of this Regulation do not prevent the Institute from allowing students enrolled in a university in India or abroad to attend specified subjects in one or more semesters without leading to any degree on certain terms and conditions.
- 3.5 All students admitted to any of the courses including those accepted under clause 3.4 above shall be required to pay at the time of joining and also in subsequent semesters prevalent tuition and other fees as prescribed by the Institute till they are on roll.
- 3.6 The Institute reserves the right to cancel the admission of any student, and ask him/her to discontinue his/her studies at any stage of his/her career on grounds of unsatisfactory academic performance, irregular attendance in classes or indiscipline.
- 3.7 Candidate admitted through JEE into B.Tech./Dual Degree/Integrated M.Sc. programmes (other than B.Arch. students) will be eligible for admission into the Dual Degree MBA programme, provided they exercise such option by the end of 1st year and qualify an aptitude test, as decided by the Institute. The CGPA criteria for such 1st year students at the end of 2nd Semester will be 6.0 for all courses/disciplines. A choice once exercised and selection for the Dual Degree MBA programme does not prevent a student to opt for a change of branch, mentioned under clause-7 and Appendix-IV of the regulations.**

4. Residence

- 4.1 The Institute is essentially a residential one and unless otherwise exempted/permitted, every student shall be required to reside in, and be a boarder of a Hall of Residence, to which they are assigned.
- 4.2 The terms and conditions that a student must fulfill during his/her stay in a Hall of Residence are mentioned in **Appendix I**.

5. Attendance

- 5.1 Attendance in all classes (lectures, tutorials, laboratories, workshops, etc.) is compulsory. A student may be debarred from appearing at an examination on ground of unsatisfactory attendance.
- 5.2 Absence from classes without prior permission will be considered as an act of indiscipline. Such cases will be dealt with in accordance with clause 3.6.
- 5.3 Detailed rules regarding attendance in classes etc., are given in **Appendix II**.

6. Conduct and Discipline

- 6.1 Students shall conduct themselves within and outside the precincts of the Institute in a manner befitting the students of an institution of national importance.
- 6.2 Detailed rules regarding conduct and discipline are given in **Appendix III**.

7. Change of Branch

- 7.1 The students admitted to a Course leading to the B.Tech. (Hons.), B.Arch. (Hons.), M.Sc. or Dual Degree in a particular branch will ordinarily be required to continue in that branch of studies.
- 7.2 However, the Institute may permit a few students, subject to their fulfilling the prescribed conditions, to change over from one branch to another, after two semesters of continuous studies. Detailed rules governing the change of branch are given in **Appendix IV**.
- 7.3 Nothing prevents a student desirous of branch change to apply for the Dual Degree MBA Programme, subject to fulfillment of condition mentioned in clause - 3.7. #
- 7.4 Third year undergraduate students will have the option to switch over from 4-year B.Tech. to an existing 5-year Dual Degree course (one-way and not the reverse) in the same department, including a choice of specialization, offered at 2-year M.Tech. level in the Department maintaining proportionate distribution of seats, provided that the student does not have any backlog up to the previous semester.*

A switch over from 4-year B.Tech to the 5-year interdisciplinary Dual Degree programs, namely, in Business Administration, Financial Engineering, and Engineering Entrepreneurship is allowed only at the end of 1st year. The students opting for such switching over may also opt for branch change for his 4-year B.Tech program as per rule. However, the branch change under the situation has to be restricted within the engineering programs.

- 7.5 A Dual Degree student may be allowed to choose any postgraduate specialization without a constraint. Alternately a department may fix the number of seats (an upper limit) in each postgraduate specialization with the approval of the Competent Authority. In the latter case, allotment of the seats will be made on the basis of the CGPA at the end of the third year including the supplementary/summer quarter results, as applicable. Upon the recommendation of the UGPEC, the Senate will approve the postgraduate specialization for the student.*

8. Course Structure

- 8.1 The duration of courses leading to the four degrees to be awarded under these Regulations are as follows:
 - (i) B.Tech. (Hons.) ... 4 years

- (ii) Dual Degree ... 5 years
- (iii) B.Arch. (Hons.) ... 5 years
- (iv) Integrated M.Sc. ... 5 years

A student would be conferred the B.Tech.(Hons.) and the M.Tech. degrees in the case of the Dual Degree; B.Tech. (Hons.) in any engineering discipline and MBA for Dual Degree MBA and the B.Sc. and the M.Sc. degrees in the case of the Integrated M.Sc. degree together on successful completion of all ten semesters of study.

- 8.2 The curricula for the different degree programmes as proposed by the respective departments and recommended by the Undergraduate Programme and Evaluation Committee (UGPEC) shall have to have the approval of the Senate. The departments would also prepare the syllabus of each subject containing the scope of studies and detailed instructions to be imparted which must have the approval of the UGPEC.

- 8.3 All subjects would have a lecture-tutorial-experiment/design component (l-t-p) to indicate the contact hours. 't' and 'p' components of a subject may be void. Separate pure laboratory subject (0-0-p) need not exist unless there is a strong reason for exception.

All subjects would have a credit count 'c'. Teaching of subjects would be reckoned in terms of credits.

Every subject would have a list of subjects (may be void) as its pre-requisite. A student who has qualified in all the subjects in the pre-requisite would be allowed to register in the subject. The teacher concerned would have the prerogative to waive the prerequisite for a student if he/she is satisfied through a test that the student otherwise have gained sufficient proficiency to take up the subject.

Subject to availability a student, irrespective of his/her level or discipline of study, may be allowed to take a subject including an M.Tech. subject as an elective, breadth or additional subject, defined subsequently in this section, if he/she satisfies its pre-requisite.

- 8.4 The curricula to be followed in the first two semesters by students of all the programmes shall be common as given in **Appendix V(a)**, except for the first year B. Arch.(Hons.) given in **Appendix V(b)**.

- 8.5 (a) Every student admitted in the first year is required to register in the Extra Academic Activity (EAA) during the first two semesters.
- (b) Except as stated in clause 8.5 (c) and (d) below
- (i) All first year Indian male students will register in the NCC and all first year Indian girl students will register in the NSS.
 - (ii) Foreign nationals will register in the NSS.
- (c) Physically handicapped will register in the NSS.

- (d) Any student who is proficient in sports may be permitted to register in the NSO.

- 8.6 During the next two semesters also the students will be required to register for one of the Extra Academic Activities. However, NCC will no longer be compulsory. Students may choose any one of the following activities: NCC, NSS or any sports/athletic activities of NSO as may be recommended by the President, Technology Students' Gymkhana and approved by the Senate.

- 8.7 The remaining course work requirements will be different for the respective degree courses. The requirements would be detailed out in the curriculum and syllabi for each of the disciplines as approved by the Senate. The overall structures for the different degrees are given below:

8.7.1 **B.Tech.(Hons.), B.Arch.(Hons.) and Integrated M.Sc.**

To get a degree a student has to earn a *Major* in a discipline. Earning a Major consists of fulfilling (i) the *depth requirement* corresponding to the discipline, (ii) the *breadth requirement* and (iii) HSS, IEM and IT subject requirements.

- 8.7.1.1 *Depth Requirement* : The depth requirement would be specified by the department and would include (a) Basic science requirements, (b) Engineering science requirements, (c) Other requirements (e.g. workshops, engineering drawing and graphics etc.), (d) Professional subjects – both core and electives, (e) Projects and (f) Comprehensive viva-voce.

- 8.7.1.2 *Breadth Requirement*: A student is required to take at least six subjects as his/her breadth subjects for which slots would be made available in the curriculum. The breadth subjects must be a subject offered by other disciplines but different from the subjects (including electives) enlisted for the requirement for his/her own depth. A student would be free to choose a breadth subject provided it is available in terms of timetable, limitation of class size and his/her eligibility.

- 8.7.1.3 *HSS, IEM and IT subject requirements*: At least two HSS elective subjects, two IT subjects and one IEM subject would be included in the curriculum of any discipline. Out of these one HSS elective and one IT based design/application subject are to be included in the depth requirement. The other HSS elective, IT elective and IEM elective may be included in the breadth requirement.

8.7.2 **Dual Degree**

The curricula for the third to eighth semesters would mostly be the same as that for earning the corresponding B.Tech.(Hons.) degree. One professional core/elective subject however, would replace one of the HSS/IEM elective offered. Ninth semester would commence from the beginning of the summer at the end of the eighth semester, when the project/thesis work for the M.Tech. degree would start. The curricula

for the ninth and tenth semester would consists of (i) one HSS subject, (ii) five professional subjects, preferably all electives (iii) one laboratory of six contact hours, (iv) project/thesis work and (v) one comprehensive viva voce at the end of the tenth semester.

The curricula for the Dual Degree MBA will be as approved by the Senate maintaining the overall structure of the course and its total credit requirement. The curricula for the third to eighth semester will contain the prescribed curriculum of the course or the discipline/branch for earning the corresponding B.Tech.(Hons.) degree, besides all the *foundation* subjects and a few *functional-area* subjects of the Management spread over the semesters (third to eighth semester). As in vogue three of these subjects will cover HSS/IT/IEM breadth and three other professional breadths, the remaining five subjects will be taken as additional subjects. The ninth and tenth semester will cover the remaining functional-area subjects and the electives closely following the pattern and sequence of the existing MBA course in third and fourth semester. The summer project will be positioned in the summer between eighth and ninth semesters and dissertation project in the first quarter of the ninth semester, comprehensive viva/advanced seminar at the end of tenth semester etc., covering the entire credit requirement of a Dual Degree. **

8.8 Industrial Training and Filed work

- (i) The curricula for all B.Tech.(Hons.) and Dual Degree courses would include compulsory industrial training for 8 weeks carrying 2 credits, to be carried out in the summer vacation at end of the sixth semester.

(ii) Compulsory Summer Internship of 3rd year UG students.

Any arrangement of training in industry or academia (within or outside the country) has to be routed through Training & Placement Section via the Professor-in-Charge of training of the respective department.

A student after being selected in an organization by Training & Placement Section cannot opt out of his training from that organization under any circumstances.

The allotment of training programmes of all the students by Training & Placement Section will be frozen by a suitable and fixed deadline each year. No further change will be entertained under any circumstances.

(iii) Evaluation of Summer Training.

The performance of the student in the Summer Training will be evaluated based on his submission of a certificate from the organization of his training followed by a combined viva-voce/presentation and report examination.

(iv) Summer Internship of 4th year Dual Degree students.

A 4th year Dual Degree student will be allowed to pursue a Summer Internship Programme provided the Supervisor of his M.Tech thesis work certifies that the programme is strongly connected to his thesis work. The students undergoing such programme will not get the M.Tech Scholarship during their period of internship outside.

- (v) The curricula of Mining Engineering would suitably include the additional requirements of industrial training and field work equitably distributed at the third and the fourth year levels.
- (vi) The curriculum of B.Arch.(Hons.) course shall include a six month field training to be carried out in the ninth semester.

9. Additional credits

- (i) If a student has a Cumulative Grade Point Average (CGPA) equal to or greater than 7.50 without any backlog, he/she would be allowed to take *additional subjects* within and/or outside his/her own discipline to earn additional credits of up to 33% of his/her requirement for major. A student would be allowed to register in an additional subject only if he/she satisfies the pre-requisite, there is no clash in the timetable and the class size permits.
- (ii) For computing the CGPA the student has to declare his/her contributing subjects at the beginning of a semester.
- (iii) Once a student has registered in an additional subject, the grade obtained (including F-grade) in that subject would invariably be recorded in his/her grade card. The credit contribution of these additional subjects to the computation of CGPA, however, would be considered as nil.
- (iv) For allowing a student to register further in additional subjects at any point of time, he/she has to maintain a grade point average of 7.00 in additional subjects taken up by him/her so far.

10. MINOR in a Discipline

1. A department would offer a MINOR in a discipline in which it offers a major.
2. The department would enlist a set of subjects from its curriculum for depth requirement and prescribe a requirement for minor taking six subjects (18-24 contact-hours plus 3-9 hours of laboratory) from this set. The subjects would be a combination of mostly core and some electives.
3. If a student of another discipline in course of his/her studies registers in a set of subjects that constitute the requirement for a minor, passes in all of these subjects and scores a minimum grade point average of 6.00 then he/she earns a minor in

that discipline. This eligibility rule is applicable for students admitted before 2009.

4. A student may cover these six subjects as either a depth subject, or a breadth subject or as additional credits. However, he/she has to take at least three subjects as additional credits to earn a minor.
5. The opportunity of acquiring additional credits and the minor would be available to the students of all the degrees and disciplines. In the case of students of the dual degree programme requirements for earning a minor have to be fulfilled within the 8th semester.
6. Except the students of Dual Degree, all others students enrolled under 5-Year courses, like Integrated M.Sc. and B.Arch. (Hons.) be permitted to pursue minor in other discipline/branch offered by other Department/Centre in disciplines like Engineering and Science up to their 10th Semester.
7. **Requirements for earning a minor (for students admitted from 2009 onwards):**

Registration: Registration in minor will be made in the beginning of 5th semester.

Eligibility: A student must have a CGPA ≥ 8.0 at the end of 4th semester (by completing all prescribed credit without any backlog).

- Credit Requirement: 22 – 28
- Number of theory subjects: 5 – 6
- Number of laboratory courses: 1 – 2

11. Registration

- 11.1 Every student of the B.Tech. (Hons.), Dual Degree, B.Arch. (Hons.) and Integrated M.Sc. courses is required to be present and register at the commencement of each semester on the day fixed for and notified in the Academic Calendar.
- 11.2 Registration of students for the First (Autumn) Semester will be centrally organized by the Academic Section of the Institute. For all other semesters the registration will be organized departmentally under the supervision of the Head of the Department.
- 11.3 A student who does not register on the day announced in the Academic Calendar for the purpose may be permitted, in consideration of any compelling reason (inclusive of medical reasons), late-registration within the next three working days on payment of a prevalent additional late fee as prescribed by the Institute. However, under special cases of natural calamity or calamity in the family, the registration of a student may be allowed up to a maximum period of 10 working days from the date of registration with late fee. This will be effective from the Autumn Session 2010-2011.

11.4 Only those students will be permitted to register who have:

- (a) cleared all Institute and Hall dues of the previous semesters,
- (b) paid all required prescribed fees for the current semester, and
- (c) not been debarred from registering for a specified period on disciplinary or any other ground.

11.5 To be able to register in the second year in the Institute at the end of the first year a student must

- (i) complete satisfactorily 2/3 of the total credits i.e. 30 credits out of 45,

A student failing to complete satisfactorily the above conditions, even after going through Supplementary Examinations and/or Summer Quarter, is required to repeat the first year.

Note: The GPA for a set of 'p' subjects will be calculated as follows:

$$GPA = \frac{\sum_{i=1}^p c_i g_i}{\sum_{i=1}^p c_i}$$

where 'c_i' is the number of credits allotted to a particular subject 'i' in the set, and 'g_i' is the grade-point (vide clause 12.1) carried by the letter grade awarded to the student in that subject 'i'.

11.6 Registration guidelines from the Third (Autumn) Semester onwards in any Semester (Autumn / Spring):

"Guidelines for registration of UG students (except fresh 1st year)

- (i) All backlog subjects of the corresponding semester have to be registered first.
- (ii) Students having only one backlog subject in a semester may register the prescribed credit of the semester in addition to the backlog subject.
- (iii) For students having more than one backlog subject in a semester the registered credit in the semester inclusive of backlog subjects must not exceed 21.
- (iv) For students repeating a year, the registered credit in a semester must not exceed 16. He/She may register for a few subjects of P grade along with backlog subjects, with total registered credit not exceeding 16.
- (v) In registration for a subject, prerequisite must be taken care of.
- (vi) Students may be allowed to take Departmental elective subjects instead of professional breadth electives.
- (vii) Registration in the subjects of same slots will not be allowed.
- (viii) Final year students may be allowed to take prescribed credit and, in addition, maximum two backlog subjects in a semester provided he has a CGPA of '6' and above so that he/she can

clear all requirements of the degree if otherwise there is no time clash."

- (ix) Students who have obtained CGPA lower than 6.00 may be allowed, on the recommendation of the Head of the Department and the approval of the Dean (Academic Affairs), to re-register in one or more subjects in which he/she received 'P' grade(s), so as to improve his/her CGPA to 6.00 or above, provided that the subject(s) is/are otherwise being offered in that semester and there is no clash in the time table. The grade will be revised and recorded only if there is an improvement. ⁹

- (x) Students desiring to opt for Dual Degree MBA will have to obtained minimum CGPA of 6.00 to be eligible for admission into the programme. The VGSOM will conduct a written test/GD&PI to select such candidates for admission, having specific curriculum from second year onwards, as approved by the Senate. ⁸

- 11.7 A student who has been debarred from appearing at an examination either (i) as per recommendation of the subject teacher for unsatisfactory attendance or (ii) by the Institute as a measure of disciplinary action or (iii) for adopting malpractice

at an examination, and consequently awarded a grade 'X', may re-register for the subject(s) after the term of the debarment expires, provided that other provisions of this regulations do not prevent him.

- 11.8 With the concurrence of the Faculty Adviser a student may be allowed to change his/her registration of subjects within one week from the day of registration.

- 11.9 If eligible (vide Section 9) a student may be allowed to register in additional subjects, with the concurrence of the Faculty Adviser, within one week from the day of registration.

- 11.10 A pre-registration of the students in all the subjects including Breadth and Additional subjects for the ensuing semester would be conducted in the current semester during a time slot to be fixed in the academic calendar. All pre-registration would be confirmed during the normal registration time.

12. Grading System

- 12.1 As a measure of students' performance a 7-scale grading system using the following letter grades and corresponding grade points per credit, shall be followed:

Performance	Letter grade	Grade point per credit
Excellent	Ex	10
Very good	A	9
Good	B	8
Fair	C	7
Average	D	6
Pass	P	5
Fail	F	0

In addition, there shall be two transitional grading symbols which can be used by the examiners to indicate the special position of a student in a subject:

- I - for 'Incomplete assessment'
X - for 'Debarred'

- 12.2 A **Semester Grade Point Average** (SGPA) will be computed for each semester. The SGPA will be calculated as follows :

$$SGPA = \frac{\sum_{i=1}^n c_i g_i}{\sum_{i=1}^n c_i}$$

where 'n' is the number of subjects registered for the semester, 'c_i' is the number of Credits allotted to a particular subject, and 'g_i' is the grade-points carried by the letter corresponding to the grade awarded to the student for the subject. SGPA will be rounded off to the second place of decimal and recorded as such. The SGPA would indicate the performance of the student in the semester to which it refers

- 12.3 Starting from the second semester at the end of each semester S, a **Cumulative Grade Point Average** (CGPA) will be computed for every student as follows:

$$CGPA = \frac{\sum_{i=1}^m c_i g_i}{\sum_{i=1}^m c_i}$$

Where 'm' is the total number of subjects the student has registered from the first semester onwards up to and including the semester S, 'c_i' is the number of Credits allotted to a particular subject 's_i' and 'g_i' is the grade-point carried by the letter corresponding to the grade awarded to the student for the subject 's_i'. CGPA will be rounded off to the second place of decimal and recorded as such.

The SGPA and CGPA are calculated in consideration of only the credits cleared, i.e. Grade F credits are not included for the calculation. (for students admitted from 2006 onwards).

The CGPA would indicate the cumulative performance of the student from the first semester up to the end of the semester to which it refers.

The CGPA, SGPA and the grades obtained in all the subjects in a semester will be communicated to every student at the end of every semester.

For determining the *inter se* merit ranking of a group of students, only the rounded off values of the CGPAs will be used.

13. Assessment of Performance

13.1 There will be continuous assessment of a student's performance throughout the semester and grades will be awarded by the subject teacher/co-ordination committee formed for this purpose. The constitution of the co-ordination committee is given in **Appendix VI**.

13.2 (a) For arriving at a grade obtained by a student for a particular subject, initially a numeric marks obtained by the student out of 100 (hundred) is to be determined. Once the numeric mark is obtained, the same is to be converted to letter grade following the guidelines given in **Appendix VIII**.

(b) For subject in which the theory component is greater than 1 (one), the subcomponents and the respective weights assigned to these are given below.

Subcomponent	Weight
Teacher's Assessment (T.A.)	20%
Mid-Semester Examination	30%
End-Semester Examination	50%

(c) For assigning marks in Teacher's Assessment (T.A.) performance in home assignments, class-tests, tutorials, viva-voce, attendance etc., are to be considered. At least two class tests are to be conducted for a subject. The weights of different sub-components of T.A. are to be announced by the teacher at the beginning of the Semester.

(d) For subjects in which the theory component is 1 (one), there would be no Mid-Semester or End-Semester Examinations. The marks of the theory component would be decided by performance in class-tests, home assignments, tutorials (if any), viva-voce, attendance etc. At least two class tests are to be conducted for the theory component of such a subject. The weights of different subcomponents are to be announced by the teacher at the beginning of the Semester.

(e) For assigning marks in the laboratory component (p-component) the relevant sub-components that are to be considered are day-to-day work, regularity, tests (at least two must be conducted), assignments, viva-voce etc. Percentage weights of the different sub-components in deciding the final marks are to be announced at the beginning of the Semester.

13.3 The eight-week industrial training undergone by the students in the summer vacation after the sixth semester would be assessed within five weeks after the commencement of the seventh semester. The students are required to submit a written report on the training received and give a seminar, on the basis of which a grade would be awarded. The students are also required to submit to the Head of the Department a completion certificate in the prescribed form from the competent authority of the organization where the training was received, without which he/she would not be assessed.

13.4 Assessment of Project Work

(a) Performance in the various activities involved in the project would be assessed individually at the end of each semester in which it is being carried out as per the curriculum. The student is required to submit a written report at the end of the semester. The Head of the Department would appoint a project evaluation board for the purpose of assessment. The project evaluation board of the tenth semester for Dual Degree/Integrated M.Sc. programme would include an external expert to be appointed by the Dean (Postgraduate Studies) /Dean (Academic Affairs), from a panel recommended by the Head of the respective Department.

The different components of evaluation and the weights assigned to these components are depicted below :

Subcomponent	Weight
Supervisor's assessment	40%
Project Report/Thesis (to be assessed by the board)	20%
Evaluation Board's assessment	40%

The student is required to give a seminar on the project work done. The evaluation board would conduct the viva-voce. Dates for conducting the seminar and the viva-voce, to be held within ten days after the end-semester examination, would be announced in the academic calendar.

(b) If a student cannot clear the project for the 7th semester, he/she can clear the same along with 8th semester project. In such case, he/she will get one grade less than actually obtained in the evaluation of project part I (7th semester component). In case of non-completion of 8th semester project in scheduled time, an extension of 2 months will be given and the student will get one grade less than that actually obtained in the evaluation of the project part II (8th semester component). The same policy will hold good for 9th and 10th semester projects for Dual Degree, 5-year Integrated M.Sc. students. A Dual Degree student can register for 9th semester project even if he/she gets the extension for his 8th semester project.

13.5 The Head of the Department would constitute the Viva-Voce Board(s) for conducting the comprehensive viva-voce examination as per the

requirement of the curriculum. The Board would decide the relative weights of the different aspects of the viva-voce and decide the grades to be awarded to the students. The dates of the viva-voce, to be conducted within ten days after the previous end-semester examination, would be announced in the academic calendar.

(b) For subjects which have a laboratory component (p-component), to secure any grade higher than 'F' a student has to achieve individually more than the cut-off marks in both the theory component and the laboratory component. Otherwise, he/she has to achieve higher than the cut-off marks in the theory component alone.
(c) The range of cut-off marks below which a student would be assigned an 'F' grade is 30-35 for the theory component and 35-40 for the laboratory component, the exact cut-off marks is to be decided by the teacher/co-ordination committee.
(d) The exceptionally brilliant performance is to be assigned an 'Ex' grade. Even the best student of any class needs to be good enough to be awarded the 'Ex' grade.
3. In the case of a relatively large class and/or classes where the performance level depicts more or less a normal distribution:
 - (a) The average performance (around mean value of marks) is to be assigned 'C' grade. However, if by teacher's/co-ordination committee's perception the general level of the class is considered to be appreciably high, the average performance may be assigned 'B' grade.
 - (b) All other marks to grade conversion are to be done relatively with respect to the average performance in between (but excluding) the F and Ex grades, which have already been assigned, by choosing appropriate boundary marks between grades.

- (c) Normally, in a reasonably large class of students distribution of grades is expected to be as follows:

Ex	: <= 10 %
A	: 10 – 20 %
B,C,D	: 20 – 35 %
P	: 10 – 25 %
F	: < – 5 %

4. In the case where a student appears in the supplementary examination or attends summer quarter, the conversion from marks to grade would be done applying the same norm as was framed for the original class.
5. For classes where excessive bunching occurs resulting in all most all the marks tending to cluster into same category, conversion from marks to grade may be done using the table given below, where 'm' stands for the marks obtained. However, the teacher may, on his/her perception of the difficulty level of assessment process undertaken, alter the boundary (cut-off) marks by +/- 5 marks.

<u>Range of Marks</u>	<u>Grade</u>
m >= 90	Ex
80 <= m < 90	A
70 <= m < 80	B
60 <= m < 70	C
50 <= m < 60	D
35 <= m < 50	P for Theory Component
40 <= m < 50	P for Laboratory Component
m < 35	F for Theory Component
m < 40	F for Laboratory Component

6. Co-ordination committee would moderate the results of the different sections of a class if wide disparity in performance across sections were observed.
7. All the requirements for the laboratory component are to be satisfied by a student within deadline set-up by the teacher/co-ordination committee before the start of the end-semester examination. If a student due to a genuine reason like illness of himself/herself or calamity in the family cannot complete a particular sub-component, the teacher/co-ordination committee may allocate him/her additional time. In this case an 'I' grade, if needed may temporarily be allocated to the student in the subject. However, the requirement in any case has to be fulfilled within 15 days of the last day of the end-semester examination and the grade finalized.
8. There is no provision for supplementary examination or summer quarter in the laboratory component. If a student cannot clear the laboratory component of a particular subject, he/she will be assigned the grade 'F' in that subject and has to reregister in the subject, if permitted, in the immediately following semester in which it is offered.
