Message from our Vice-Chancellor

Prof. Bijendra Jain, Ph.D.

Deemed to be University, established under Section 3 of UGC Act 1956. Accredited with an 'A' Grade by NAAC, the Institute has been consistently ranked amongst the top 10 engineering institutes in the country and as the best private engineering institute by leading magazines and newspapers. Needless to say, this has not happened accidentally. Right from its inception BITS Pilani has had a world class curriculum for its UG and PG programmes, with emphasis on developing analytical skills as also on hands-on laboratory-based experimentation and project-oriented work. BITS Pilani, with the help of MIT, was the first in India to introduce a semester based credit-based system with continuous evaluation.

Admissions to UG and PG programmes at BITS Pilani are based solely on merit as determined by nation-wide on-line tests conducted by BITS Pilani. Once students undergo rigorous training, both inside the

classrooms and laboratories as well as outside, they are adequately equipped to design, develop and market products and services for the discerning consumers in India or abroad as also take on leadership's roles in later years in their careers. I would like to invite design, manufacturing and service organizations in India or abroad to visit our campuses at Pilani, Goa, Hyderabad and Dubai and explore employment /placement opportunities with our students graduating in the year 2012-13.

A handwritten signature in white ink on a dark blue background. The signature is stylized and appears to be 'Bijendra Jain'.

BITS Pilani

Shaping minds, Reshaping India

Focus on providing opportunities for overall development ”

We are Birla Institute of Technology and Science, Pilani (BITS Pilani), one of India's leading higher education institutes and a deemed university under Sec. 3 of the UGC act.

Our commitment to transparency and stress on equal opportunity has been a key contributing factor behind our emergence as an institute of national repute, our rigorous intake process rewards only merit and ensures that only truly motivated students join us. Our curriculum is continuously being innovated and refreshed to reflect the latest

developments in technology and trends within industry. Pure academics are supplemented by pervasive industry engagement and every student is exposed to practical applications of classroom knowledge under a structured semester-long engagement programme.

In addition to academics, we also focus on providing students with opportunities for all round development. All our campuses are thriving nodes for student driven art, sports and other activities. In keeping with the needs of tomorrow, we are

expanding our focus on research even further and seeking newer avenues of industry engagement to help our students gain the skills to power the knowledge economy of the future. Since our inception, we have strived to stand apart and create professionals who excel on every parameter. Today, our alumni body is a vast and thriving community of technocrats, senior executives, successful entrepreneurs and leaders of society. It is this legacy of excellence that continually inspires all our students.

A Winning Legacy

History

Our flagship campus at Pilani (Rajasthan) was set up in technical collaboration with MIT (USA), under the Ford Foundation Grant and later was deemed to be a university in 1964. Over time, our footprint has spread across the nation and abroad with the opening of sister campuses at Dubai, Goa and Hyderabad. We have been accredited with the

highest grade 'A' by the NAAC and received a combined score between all our campuses of 3.71 out of 4. Outlook Magazine has ranked us the best private engineering university and the 6th best overall. The magazine also ranked us no. 1 in terms of personality development, Industry interface and Infrastructure.

Alumni Network

The truest worth of an institute can only be gauged by the success of its alumni. On this front, our students have made us proud time and again. From top corporate executives to successful entrepreneurs, from leading researchers to renowned faculty, and leaders of Industry to leaders of the nation, our alumni have made truly remarkable

achievements in a diverse range of fields. Our vast alumni network helps us in bringing a real-life perspective to students by interacting with them regularly through meets arranged by the Alumni association, coaching and mentoring students to prepare themselves for real world challenges in industry and beyond.

Transparent Intake Process

The pursuit of excellence requires a transparent and honest approach ”

BITS Pilani is one of the very few institutes in India where 'Merit' is the only criterion for admission.

BITS conducts a fully online examination –BITSAT which ensures complete transparency.

Apart from Physics, Chemistry and Maths, BITSAT tests students on logical reasoning and English, thus making it more complete and comprehensive in its evaluation of the candidates.

Applicants must have 80% aggregate in Physics, Chemistry and Mathematics and 60% score in English, in their senior secondary board exams to be considered for admission.

Similar merit-based intake policy is followed in all admission Processes in Masters and PhD admissions.

Every year, a large number of Board toppers join BITS from all across the country.

Admission to BITS Pilani, Dubai Campus is based entirely on the candidate's merit in 10+2 level examination. Candidates with BITSAT score have preferential admission. Candidates from GCC countries are first offered admission.

Life at BITS Pilani

Education and Curriculum

BITS Pilani has always stood for the best in education and pedagogy. We design our courses to promote deep understanding and learning of concepts and our curriculum is constantly evolving, keeping in sync with global research.

The following are some of the key components of curriculum at our campuses.

Academic Life

The programme structures for all our disciplines have been designed to challenge the brightest minds. Each academic year is divided into 2 semesters, with the following outline:

Degree Programs

We offer educational degrees at First Degree (Undergraduate), Higher Degree (Graduate) and Doctoral Levels.

At the first degree level, we offer B.E (Hons), B. Pharm. (Hons.), M.Sc. (Hons.), and M. Sc. (Tech) degrees.

At the Higher Degree level, we offer M.E., M.Pharm, MBA and MPH Programmes.

Note:

- 1) All first degrees typically take 4-years to complete
- 2) All dual degrees typically take 5-years to complete
- 3) The institute follows a 10-point grading system.

Dual Degree

Under this programme structure, students work concurrently towards earning 2 degrees within a set time frame. Students undertaking dual degrees, complete all the compulsory classes for both the degrees that they are enrolled in.

Dual degree is one of the most popular options amongst the various flexibilities offered under our curriculum.

Practice School

An integral part of academics is Practice school or internship. The program is spread across two phases, one of two months and another five & half months and consists of the most extensive industrial internship.

Thesis Programme

In lieu of the Practice School, students can also opt for the Thesis Programme (Dissertation for higher degree). The thesis programme is an integral part of our academic structure and gives students a chance to understand the challenges of working in a research setting.

Our courses are designed to help promote overall learning of concepts ”

Semester 01

Semester 02

Year 04

Electives & Practice School II

Semester 01

Practice School 02

Practice School 02

Semester 01

Students are introduced to a wide range of common courses that set the foundation for the more branch-intensive courses to come. The end of the year sees students take a long summer break of two and a half months that they may utilise by taking up independent internships or NGO work.

This year brings with it a diversification in terms of courses. Students are exposed to extensive courses in their branch of study. Laboratory courses are introduced to ensure that students can find a practical link between what is taught in the classroom and its real-world applications. At the end of the year, students have the option of joining the 2 months Practice School Programme which provides them their first real-life exposure to corporate or industrial environment.

The third year is academically the most concentrated & rigorous. Students are taught their Compulsory Disciplinary Courses which go in depth and explore the finer points of the branch of their choice. Laboratory courses are more intensive than ever with numerous evaluative components to complement lecture classes. Projects and design assignments test the application skills of each student.

The first semester of the fourth year sees half the students working off campus for the second phase of Practice School, while the other half of students remain on campus and take a number of elective courses. With the flexibility of taking courses from across branches, these courses allow students to explore their interests. During the second semester this half goes out to complete their PS 2 while the first half comes back to campus to complete their degree.

Campus Life

Learning outside the classrooms

An enriching campus life for students has always been our major focus ”

The institute is fully residential with hostel accomodation provided to almost all students.

Infrastructures like Students Activites Centre (SAC), Gym-Grounds, Museum, Observatory and Central Library are hot spot of activities round the year.

Students also get to participate in the activities of various hobby clubs, Recreational Activity Forum, Academic Counselling Cell, Senate, Entrepreneurial cell, National Service Scheme etc. pursuing their specific interests.

Every campus has an empowered Students' Union thus enabling students to participate in adminstartive roles. Students also plan, organize and manage various national and international level cultural and academic festivals.

It is a great experience to be working in groups that exposes students to a completely different aspect of problem solving from the one that they learn in the regular course of academics.

Practice School

Internship is organized by the Institute for all students. Students are evaluated and graded on their performance”

The program is spread across two phases, one of two months and another five & half months and consists of the most extensive industrial internship.

The program is unique to BITS Pilani. No other university in the country has such an extended period of on-the-job training for its students as a part of its curriculum.

It gives students an exposure to the real challenges that they would be facing while working in Industry.

Practice School stations are over 400 in number and are spread throughout India and abroad covering various sectors.

Intensity & rigour of the Practice School Programme makes our students employment ready to take on work life challenges.

Our Campuses

Pilani Campus

Our flagship campus has a historic legacy of more than 45 years. Also known as Vidya Vihar, it is situated outside the town of Pilani, Rajasthan, the hometown of the Birla family.

The city is located 200 kms west of Delhi and 220 kms, north of Jaipur. Covered with wooded paths and spread over 328 acres, the campus is self contained and houses all the amenities and buildings that befit an institute of international standards. The programmes are fully residential with 11 hostels for boys and one hostel complex for girls. Around 4500 students live on campus along with 400 faculty members, their family and a vast pool of support staff.

The campus also boasts of a magnificent library complex with a floor area of 65,000 sq. ft and a rich collection of more than 2,30,000 volumes of books and manuscripts.

An intellectual powerhouse, the campus has successfully attracted healthy amounts of research funding from government grants and private bodies. The research facilities are wide ranging, with a number of laboratories focussed on all aspects of

Covered with wooded paths and spread over 328 acres ”

science and technology. The campus boasts of a state-of-the-art network that provides connectivity to the entire institute.

The institute has embarked on a journey to become one of the Leading universities in the world via a new strategic plan called 'Vision 2020'.

K K Birla Goa Campus

Nestling in the lap of verdant hills, overlooking the Zuari River and located at 5.5.kms from the Goa airport along the national highway 17B , BITS Pilani, K K Birla Goa Campus is spread over an area of 180 acres. Established in 2004, the campus offers 11 First Degree, 6 Higher Degree and Ph.D. Programs to 675 students admitted every year. About 2400 students and 170 faculty members live in this fully residential campus known for its vibrant, dynamic, multicultural and intellectual environment.

Within a short span of eight years, the Campus has set up state-of-the-art infrastructure housing a number of spacious laboratories, modern classrooms, a well equipped library, a magnificent auditorium , world class sports facilities and campus-wide connectivity—to name a few. The innovative education system of BITS Pilani University coupled with the energizing atmosphere and such infrastructure facilities has been attracting the brightest students and faculty to this Campus.

About 21 research projects funded by various government departments and private agencies in the areas of biosensors, fuel cells, nanomaterials, polymer chemistry, pollution control, bioremediation, composite materials, have been taken up by the

The campus has become an intellectual hotspot ”

faculty of Goa campus. While the academic community engages itself in bringing out its best in teaching, research and administration, the students keep themselves occupied not only with academics but also with a plethora of extracurricular and co-curricular activities thereby preparing themselves for their professional career ahead .

With all its innovative and earnest endeavors, BITS Pilani, K K Birla Goa Campus has carved a niche for itself not only in Goa but also across the nation and continues its journey towards excellence.

Hyderabad Campus

Established in 2008, the BITS Pilani, Hyderabad campus is spread over an area of 200 acres in Jawahar Nagar, Shameerpet Mandal. Surrounded by natural beauty the campus is a mere 27 kms from Hyderabad city and 70 kms from the Rajiv Gandhi international airport.

The campus has set up a state-of-the-art infrastructure without affecting the scenic beauty of the campus. Spacious labs, well furnished classrooms, library, lecture theatres and network infrastructure, all come together to make BITS Pilani, Hyderabad an extremely well equipped campus.

Around 800 bright minds are admitted every year into the first degree, higher degree and doctoral programmes. The campus is fully residential, housing over 2700 students and over 150 faculty members. The academic community combines extensive research, training and industry experience to offer a comprehensive education to students.

Currently over 40 research projects are active on campus, most of which are backed by prominent

The campus has set up state-of-the-art infrastructure ”

funding agencies. A TBI is established with financial support from DST.

Campus life is vibrant and stimulating. Student calendars are filled with healthy mix of extracurricular

activities through various clubs and departments. There is a culture of freedom coupled with a holistic environment for multidimensional growth. The students of the campus are truly ready to become the innovators of tomorrow

Dubai Campus

Established in 2000, the BITS Pilani, Dubai Campus has the distinction of being the first campus of BITS Pilani outside Pilani and the only international campus of BITS Pilani. The campus is located in the heart of Dubai International Academic City (DIAC), Dubai, which is a Global City with most modern infrastructure, many world marvels and cosmopolitan society. The campus is about 15 km North of Dubai International Airport, and is spread over 15 acres with a floor area of 6,00,000 sq.ft. BITS Pilani has the distinction of first foreign university to have its own and largest campus in DIAC.

The campus has three main buildings – Academic block, Mechanical Block and a magnificent two storey library block. There are six conveniently located boys and girls hostels on the campus. The campus buildings, infrastructure, laboratories, library, workshop, hostels, indoor and outdoor sports facilities etc. are all of international standard and state-of-the-art.

Over the past 12 years, the campus has achieved the phenomenal growth and distinction of being the most preferred Institution in the region, as providers of Indian Higher Education in Engineering and allied areas and has been successful in attracting a large number of students from India. The admission to all

The campus has set up state-of-the-art infrastructure ”

programmes offered – 9 First Degree, 5 Higher Degree and Ph.D. programmes in Engineering and allied disciplines, is based on merit only. All the programmes offered at the campus are authorized by Knowledge and Human Development Authority (KHDA), Government of Dubai.

The multicultural, dynamic and intellectual campus is vibrant with about 1600 students, with approximately

30% girls, hailing from 20 countries and 700 of them staying on-campus. The students are also strong in extra- and co-curricular activities and win many of the inter-university competitions in the region. The conducive atmosphere provides for their multidimensional growth. Their exposure to international, multi-ethnicity culture gives them extra strong communication and interpersonal skills and makes them ready for global placements.

Process Driven Placement System

Most of our students have their career paths charted much before graduation ”

The placement scenario at all our campuses has always been extremely positive. Most of our students have their career paths charted much before graduation. Almost 500 students from the Pilani campus, 300 from K K Birla Goa Campus and 300 from the Hyderabad campus are available for placements every semester. Almost 100% succeed in securing a job.

Over 160 reputed companies visited our campuses in the previous placement season of 2011 -2012, a big number of whom were repeat visitors. Over time,

our placement process has been refined to make recruitment as simple as possible for students and companies alike. A team of dedicated placement committee volunteers work to ensure simpler logistics and all other related issues regarding campus placements. The team is headed by a Placement Coordinator, assisted by a Pitching Head and a Logistics Head and a team of around 50 volunteers in each semester.

Two Placement Seasons in a year

Roughly half of the out going batch avails placement in first semester and the other half in the second semester.

Semester I : August to November

Semester II : January to April

CTC-Wise Recruiter and Placed Students Distribution

Sector-Wise Recruiter and Placed Students Distribution

Why Recruit from BITS Pilani

01 Stringent student selection

All our students enter the institute after proving themselves first at school level and then again at BITSAT. We believe in rewarding only merit and thus offer no quota of any kind.

02 World class curriculum and faculty

A large number of our faculty members are Ph.Ds and are actively involved in research and journal publications. Our curriculum is constantly updated to reflect the latest in technology and research.

03 Students with experience in industry

The Practice School programme ensures that every student has spent over 7 months working in industry even before graduation. The programme exposes them to real life applications of their course work and teaches them to work in a collaborative environment. The Practice School gives students the vital experience needed to adapt quickly to careers in industry.

04 Balanced personalities

We believe wholeheartedly in helping students develop to their full potential in every field of their interest. Soft skills development is made part of the class-room experience through presentation and open ended learning components. Extracurricular activities, student managed clubs and events give them further avenues to express themselves and develop skills beyond academics.

05 Stellar ratings

We have consistently performed well in many surveys of educational institutes. We have been awarded the highest grade, A and one of the highest institute CGPA's 3.71 out of 4 by the NAAC after a combined assessment of all the campuses. We have also been ranked as the best private engineering university of India and 6th best overall by Outlook magazine. The magazine also ranked us No. 1 in terms of personality development.

06 Extremely successful alumni

Renowned scientists, successful entrepreneurs and managers and leaders of society, our alumni have made us proud time and again. Alumni are actively engaged with the institute and with the students, motivating them to perform and excel at whatever they do.
