PART – I – NURSING V

- Paper – I – Panchakarma II
- Paper – II – Manasikarogi Paricharana

- Paper – III – Sisuparicharana

PART – II – NURSING RESEARCH

- Paper IV – Nursing Research and Statistics.

A candidate who appeared for the III year University examination are being eligible to get promotion in the final year classes.

IV year examination (to be held at the end of 4 yrs.)

No student shall be permitted to appear in IV year examination until he or she has passed in all the I, II and III year subjects. The examination shall be completed by the end of June. The 4th year examination shall be held after 4 academic years and shall comprise the following subjects.

PART – I – NURSING –VI

- Paper – I – Maternity & Gynaecological Nursing .
- Paper – II – Sāmoohya swasthya Samrakshana

PART – II – EDUCATION & ADMINISTRATION

- Paper – III – Nursing Education
- Paper – IV – Nursing Administration

Class schedule card shall be maintain for each student for each year examination

I YEAR B.Sc NURSING

Course of Study for the first year B.Sc Nursing (Ayurveda), shall be one academic year and comprise the study of the following subjects ,

PART – I BIOLOGICAL SCIENCES

- Paper – I -Basic concepts of Ayurveda & Sanskrit
- Paper – II Sareera Rachana Vijnanam
- Paper – III Sāreere Kriya Vijnanam

PART – II – SOCIAL AND BEHAVIOURAL SCIENCES

- Paper – IV Sociology and general psychology

PART – III – COMMUNITY HEALTH

- Paper – V Swasthavrutha – I

PART – IV – NURSING I

- Paper – VI – Foundations of Nursing with first aid .
- Paper VII – Panchakarma I

PART - V – i. COMPUTER SCIENCE

ii. YOGA

II YEAR BSc NURSING COURSE

Course of Study for the Second year B.Sc Nursing (Ay), shall be one academic year and comprise the study of the following subjects.

PART – I - NURSING II

- Paper – I - Medical Nursing
- Paper – II – Pharmacological Nursing & Dietetics

PART – II – NURSING – III

- Paper III – Salyakarma Paricharana
- Paper IV – Salakyakarma Paricharana

PART III - NURSING - IV

- Paper V - Swasthavrutha – II

THIRD YEAR BSC NURSING COURSE.

Course of Study for the third year B.Sc Nursing (Ay), shall be one academic year and comprise the study of the following subjects ,

PART – I – NURSING V

- Paper – I – Panchakarma II
- Paper – II – Manasikarogi Paricharana
- Paper – III – Sisuparicharana

PART – II – NURSING RESEARCH

- Paper IV – Nursing Research and Statistics .

FOURTH YEAR BSc NURSING COURSE

PART – I – NURSING –VI

- Paper – I – Maternity & Gynaecological Nursing .
- Paper – II – Sāmoohya swasthya Samrakshana

PART – II – EDUCATION & ADMINISTRATION

- Paper – III – Nursing Education
- Paper – IV – Nursing Administration

<u>PART – II – EDUCATION & ADMINISTRATION</u>			
Paper – IV – Nursing Education		80 hrs	160 hrs
Paper – V – Nursing Administration		60 hrs	160 hrs
	Total :	320 hrs	1300

Grand Total (theory) : 320 hrs = 36 hrs per weeks x 9 weeks

Grand Total (Practical) 1300 hrs = 40 hrs per week x 32 weeks + 20 hrs extra

Vacation / Holidays = 6 weeks

Preparation for the Examination = 2 weeks

Examination = 3 weeks

Total : 52 weeks

FOUR YEAR B.Sc Degree Nursing Course **Ayurveda syllabus.**

FIRST YEAR

Paper I - Basic concepts of Ayurveda .

Placement

Time allotted 65 theory hours for Basic concept of Ayurveda and 25 hours for Sanskrit.

Aim: The Students identify the concepts and facts of Ayurveda to facilitate understanding Ayurvedic concepts in giving comprehensive nursing.

✍ Unit I –

- ♦ Basic concepts of Ayurveda – General awareness of the evolution of Ayurveda and Panchamahabootha theory
- ♦ Dosha Dhatu Malavijnanam (with modern Physiological references) Panchamahabootha theory and concept of Manas.

✍ Unit II

DRAVYA

Definition, Constitution, Classification elaboration of terms - Rasa, Guna, Veerya, Vipaka, Prabhava with proper definition constitution and classification .

✍ Unit III .

- ♦ Concept of Roga and Arogya

Unit IV

- Concept of Agni and its importance
- Concept of Prakruthi, Koshta, Desa, Oushadha & Oushadhakala.

Unit V

- Concept of Padachatushtaya

Unit VI

- Concept of Ayurvedic Prognosis.

Unit VII- SANSKRIT – 25 Theory hours

- Basic knowledge of Sanskrit.

I – Sabdamanjari, Sidharoopam

1. The alphabet – Classification letters

2. The usage of cases

3. Sabdarooapa

a) Ajantha pullinga , Napumsakalinga and streelinga

i) 'Rema', 'Hari', 'Guru', 'Go'

ii) 'Phalam', 'Madhu'

iii) 'Rema', 'Mathi', 'Nadee'

b) Halantha

'Rajan', 'Mahat', 'Pums'

c) Pronoun

'Ushmad' , 'Asmad', 'Tat'

II. Conjugation of verbs

a) Brief introduction of ‘ Dashalakaras’ with special reference to present and future.

b) Dhathu roopa

‘Bhu’, ‘As’, ‘Kru’, ‘Vand’

III. Translation of simple sentences from Sanskrit to Malayalam and vice versa

IV. Sandhi, Aavyaga and voice be taught with the approximate textual context.

V. Sree Ramodantham – Balakandam

VI. Twenty lines of sbhashitha related with Ayurveda – First chapter of Vaidyakeeya subhashitham.

REFERENCES

3. First chapter of Vaidyakeeya subhashitham – Chaukamaba publication

MARKS DISTRIBUTION

Marks for theory paper I divided into A & B carries 50 + 50.

Basic concept of Ayurveda : 75 marks

Sanskrit : 25 marks

SPLITTING OF THEORY MARKS

Part A

Unit I : 35 marks

Unit II : 15 marks

Part B

Unit III, IV, V & VI : 25 marks

Unit VII : 25 marks

Paper II- Sareera Rachana Vijnanam

Unit I

- Sareera Upakrama
- Concept of body and importance of Anatomy.

Unit II

- Evolution of Body and functional importance of Thridosha, Thriguna, Dosha Dhatu and Mala.

Unit III

- Garbha Sāreera , Study of concepts of Gharbadharana, Poshana and Samvahana.

Unit IV

- ♦ Asthisāreeram
- ♦ Study of bones – Identification , classifications, structure along with attachments of muscles.
- ♦ Types of joints .

Unit V

Body as an integrated whole organization, study of the body cells, tissues , organs and systems .

Unit VI

- ♦ Marma Saareeram

Unit VII

Comprehensive study of the following systems:

- Cardiovascular system
- Respiratory system
- Gastrointestinal system
- Genitourinary system
- Nervous system
- Endocrine system

PRACTICAL

Demonstration & Identification and surface anatomy of soft organs, bones and muscles within the limits of the prescribed theory topics.

REFERENCES

1. Relevant portions from Bruhathryi – Sāreera sthana
2. Human anatomy Vol I , II , III – B.D. Chaurasya

MARK DISTRIBUTION

PART A

Unit I, II, III : 20 marks

Unit IV : 30 marks

Part B

Unit V & VI : 15 marks

Unit VII : 35 marks

Paper III – Sareera Kriya Vijnanam

Placement : 1 year

theory 80 hrs , Demonstration 10 hrs

Aim : the student identify the concepts and principles of the human body and apply these giving comprehensive nursing care.

THEORY

Unit I

Concepts of the following physiological factors with its proper definition constitution and classification .

- ♦ Dosha
- ♦ Dhatu
- ♦ Mala
- ♦ Srothases
- ♦ Upadhatus
- ♦ Ojas
- ♦ Siradhamanies
- ♦ Indhriyas
- ♦ Prakruthi.

MODERN PHYSIOLOGY

Unit II

- ♦ Blood, Tissue fluid and lymph
- ♦ Basics of Bio- chemical investigations.

Unit III

Comprehensive study of the following systems:

- ♦ Cardio vascular system
- ♦ Respiratory System
- ♦ Digestive system
- ♦ Endocrine system
- ♦ Reproductive system
- ♦ Excretory system
- ♦ Nervous system

Unit IV

- ♦ Special senses – Physiology

DEMONSTRATION

- ♦ Routine examination of blood and urine

MARK DISTRIBUTION

Part – A – Ayurvedic

Unit I : 50 marks

Part B Modern

Unit I : 50 marks

Part III – Community Health

Paper V – Swasthavrutha I

AYURVEDIC PART

Unit I

Swasthavrutha Parichaya, Swasthavrutham, Aathuravrutham, dhinacharya , Rithucharya.

Sadvritham, Janapadodhwamsaneeyam.

Annapaanavidhi, Annasamrakshaneeyam, Mathrasitheeyam, Sathapathyadravya.

MODERN ASPECTS

Unit I

Introduction to community health in the study of concepts of :

- ♦ Health and disease.
- ♦ Community medicine.
- ♦ Social medicine.
- ♦ Community health.
- ♦ Classification of diseases.

- ♦ Levels of prevention .
- ♦ Personnel health – Mental, Social and Spiritual .
- ♦ Surveillance of health immunology.
- ♦ Concepts of primary health care, Environment, Food.
- ♦ Community resources for health and welfare.
- ♦ Practical Experience of the above concepts are to be conducted at different stages.

Nutrition

- ♦ Introduction of Nutrition, Classification. Detailed study of Plant food, calorie utilisation,
- ♦ Balanced Diet, Specialized nutritional plants, Reservation and storage of food.

DEMONSTRATIONS

Practicals of the above set topics are included.

Portions for the practical Record

Dinacharya

1. Nasya
- 2 .Gandoosha & Kabala
3. Dhoomapana
4. Anjana
5. Udvrtana

Acharacharya

1. Aharadravyaparichaya

- a. Wheat
- b. Rice

- c. Ragi
- d. Beet root
- e. Water melon
- f. Bengal gram
- g. Black gram
- h. Orange
- i. Honey
- j. Different types of milk
- k. Ground nut
- l. Cashew nut
- m. Cabbage
- n. Cucumber
- o. Onion
- p. Banana
- q. Lemon
- r. Tomato
- s. Food and Nutrition
- t. Balanced diet
- u. Preparation of special diet charts for different age groups and during pregnancy and location.

MARK DISTRIBUTION

Part A – Ayurvedic

Unit I : 50 marks

Part B – Modern

Unit I : 50 marks

PART IV – NURSING I

Paper VI – Foundations of Nursing and first aid .

Aim : To explain the basic concepts and principles guiding nursing activities.

Identification of the basic needs and problems of patient.

Development of skills in communication and maintains good interpersonal and professional relations.

Application of the principles of first aid in Emergency situations.

MODERN PART

Unit I

- ♦ Nursing as a profession
- ♦ Introduction
- ♦ Definition
- ♦ Profession and its characteristics
- ♦ Qualities of Professional Nurse
- ♦ Care – Cure concepts
- ♦ Patient centered approach
- ♦ Holistic approach

Unit II

- ♦ Health and illness
- ♦ Definition
- ♦ Stages of illness
- ♦ Impact of illness on patient and family.
- ♦ Levels of prevention
- ♦ Health care team.
- ♦ Role of Nurse.

Unit- III

- ♦ Hospital and environment – Importance
- ♦ Therapeutic environment

- ♦ Importance of Safe and healthful environment
- ♦ Infection control – definition.
- ♦ Concept and practice of asepsis – Care and Maintenance of article.
- ♦ Disinfections and sterilization .
- ♦ Isolation techniques.

Unit IV

Development of Communication and interpersonal relationship Health Assessment – General Concepts Health history Physical examination. Body Mechanics – Definition, Principles, Protective position, Turning lifting and transferring of patient. Admission of Patients in the Hospital.

Unit V

- ♦ Assessment of vital signs
- ♦ Monitoring Vital signs – Temp , Pulse, Respiration, and B. P significance .
- ♦ Human needs in Health and disease – basic needs / and problem.
- ♦ Alteration in nutrition, Bladder elimination, Bowel elimination .
- ♦ Alteration in rest and sleep, Impaired mobility, causes, Nursing of such patients .
- ♦ Alteration in sensations, assessment, care of unconscious patients.
- ♦ Therapeutic uses of Heat and cold, Hot applications - effect on body.
- ♦ Hot water bag, infrared therapy, Cold application and effects.

Unit VI

Rehabilitation and role of Nurse. Assessment of spiritual needs and relaxation techniques Yoga and reading . Care of terminally ill patient .

Unit VII

- ♦ First Aid
- ♦ Introduction
- ♦ Definition
- ♦ First aid in Respiratory and circulatory emergencies.
- ♦ Fractures and dislocations .
- ♦ Application of splints and bandages.
- ♦ First aid in burns snake bite, Dog bites and food poisoning and other organophosphorous poisoning.

- ♦ Kshudra
- ♦ Seethapitha
- ♦ Chidhraroga
- ♦ Kushta

Study of Ayurvedic Diagnostic measures : Apthopadesadi trividhapareeksha, Shadanga, Chathurvidha , Ashtasthana, Dasavidharogapareeksha, Srothopareeksha, Dhatu, Upadhatupareeksha.

Study of Upasaya, Anupasayabheda, Arishtalakshanas of above said diseases.

Geriatric Nursing care

1. Concept of Geriatric treatment
2. Diseases related to aging and its management .
3. Pre and post management of Rasayanavidhi
4. Rehabilittation of paralytic patient and their care.

MODERN PART

Introduction

Study of Eteopathology, Symptomatology, Diagnostic measures, course and management of patient suffering from common communicable diseases and comprehensive nursing care of the following systemic diseases.

1. Respiratory system First Aid in Respiratory Emergencies – Bronchitis, Bronchial Asthma , Corpulmonale, Lung Abscess, ARDS, Tuberculosis, Empyema, Pneumonia, Respiratory failure .

2. Cardio vascular system – First Aid in Circulatory emergencies .
3. CAD, CCF, RHD, Hyper tension .
4. Haematology.
5. Anaemia
6. Leukaemia , Lymphomas, Multiple myeloma, Haemophilia, DVT.
7. Gastrointestinal system - APD , UETD , GERD, IBD, Hepatitis, Panchreatitis., Gastritis.
8. Genito – urinary system - UTA, Nephritis , Nephrotic Syndrome. PIDs
9. CNS – Headache, CVA, Convulsions, Migraine , Meningitis, GBS, Parkinsonism, Alzheimer’s, Myastheniagravis,
10. Endocrine system :- Diseases of thyroid and parathyroid glands, Diabetes mellitus , Addison’s, Cushing syndrome, Acromegaly
11. Musculoskeletal system : Osteomalacia Osteoarthritis Gout, SLE.
12. OMC : Poisoning, Snake bite, allergies
13. Emergency nursing : Definition , Principle of Emergency, Management of emergency,
14. Care of the elderly : Physical, Psychosocial, Intellectual and spiritual health problems of the aged.
15. Communicable diseases : Review of infection process of Bacterial, fungal , viral, Protozoal , Rickettsial, Helminths . Nursing care of patients with typhoid A/C diarrhoeal diseases , Plague, Weils disease, Hepatitis , Rabies, AIDS, Dengue fever.
16. Dermatology and Venereology, Common skin diseases, diagnostic, nutritional and pathological study. STDs.

MARK DISTRIBUTION

Part A – Ayurvedic

Unit I : 50 marks

Part B- Modern : 50 marks

Unit I : 50 marks

Paper II : Pharmacological Nursing and Dietetics

Aim :- To familiar the principles of both Ayurvedic and Modern Pharmacological science and Dietetics.

General Pharmacology : Introduction and definition of Ayurvedic Pharmacology, Rasa, Guna, Veerya, Vipaka, Prabhava. , Sources of drugs, Weights and measures, Posology, Ayurvedic Pharmaceutical concept ,Pharmacological Ethics and Principles, Prescription mode and routes of drug administration, Shelf life and expiry of life, Awareness of Rasaoushadhiees ,

Dietetics : Introduction, importance of Sadāpathyaahas, Bhojanavidhi, Bhojanakāla, Diets in various disease conditions, Ahārapathya in Karshya, sthoulyarogas, Aaharavidhi for bala, kshēna, Vrudha group of Rogi.

- Administration of medicines
- Classification of drugs , Actions , Dosage.
- Awareness of different Kalpanas- Kwatha , Choorna , Avaleha, Asava, Arishta, Arkka, Rasaoushadhas, Bhasmas, various external applications.

- Knowledge of routes of administration, Storage.

MODERN PART :

Modern Pharmacological concepts, Definitions, Source of drug, weights and measures, Pharmaceutical preparations., route of administration and adverse reaction of drugs.

Systemic Pharmacology

1. Classification
2. Mechanism of action of the following systemic acting drugs.
 - ♦ Autonomic nervous system
 - ♦ Central nervous system
 - ♦ Cardio vascular system
 - ♦ Blood
 - ♦ Respiratory system
 - ♦ Gastrointestinal system .
 - ♦ Endocrinal system
 - ♦ Antibiotics and Chemotherapeutics
 - ♦ Nutrients, fluids and electrolytes
 - ♦ Role of nurses in drug administration and responsibilities in Pharmacology intervention related to systemic pharmacological agents .

DIETETICS

- ♦ Unit I
 - ♦ Introduction
 - ♦ Normal Nutrition
 - ♦ Therapeutic Nutrition
 - ♦ Nutritional deficiencies

Concepts of diets in the following conditions.

- ♦ Underweight
- ♦ Obesity
- ♦ Diabetics
- ♦ Cardiovascular diseases
- ♦ Kidney diseases
- ♦ GIS diseases.
- ♦ Pediatric diseases
- ♦ Diet in Bedridden patients.

AYURVEDIC PART

Unit I

Introduction, Definition, Importance of the subjects – Susrutha Pradhanyam ,

Vyadhipradhanam, Sadhyasadhyatha, Vyadhi prakaram

Vruna – Definition, Etiology, Pathophysiology, Types, Symptoms, Complication.

Vruna upakramam Sapthasashti upakramas

Etiology, Pathophysiology , Symptomatology and Management of the following diseases.

- ♦ Nadvruna
- ♦ Arsas
- ♦ Rekthasrāva.
- ♦ Seevanadhi upakrama
- ♦ Vishesha upakrama
- ♦ Lapanavidhi
- ♦ Aharavidhi

Diagnostic measures of the following diseases.

- ♦ Arsa
- ♦ Charmakeela
- ♦ Moothrākrchra
- ♦ Moothrāghatha
- ♦ Grandhi
- ♦ Apachi

- ♦ Arbudha
- ♦ Vidhradhi
- ♦ Mehapidaka
- ♦ Parināmasoola
- ♦ Annadravasoola
- ♦ Kshudraroga.

Study of Upasaya, Anupasaya, Bedha, Arishta, Lekshānas of the above said diseases.

Study of the Sasthrakarma, Ashtavidhakarmas, Pichu, Plotha, Kapalika, Vrunasodhana, Ropanadravya, Poorva and Paschāthkarma of each sasthrakarmas, Kshara, Agni, Jelooka, Siravedha descriptions. Instruments, types, Nos, Name .

- ♦ Bandaging (Bandhas)
- ♦ Study of Ayurvedic description of different types of Bandhas for fractures .
- ♦ Immobilization method
- ♦ Management of burns
- ♦ Causality management of burns
- ♦ First aid in poisonous bites of various Animals , insects and snakes .
- ♦ Study of the descriptions of Ayurvedic Management.

Upachārās , Pathya – Pathya to Salyachikitsa .

MODERN PART

Unit I

Introduction : Development of Surgery, Infection, Abscess, Inflammation , Wound healing , Shock and hemorrhages.

Auxiliary Surgical Manoeuvres in the following systemic diseases.

- ♦ Respiratory system
- ♦ Cardiovascular system

- ♦ Gastro intestinal system
- ♦ Genitourinary system
- ♦ Nervous system
- ♦ Musculo- skeletal system
- ♦ Allied surgical diseases.

DEMONSTRATION

The corresponding unit posting may be done, accordingly.

Patient and their social rehabilitation.

MODERN ASPECT

Unit III

PART I – NURSING V

Classes by Psychiatric Nursing faculty	– 6 hrs
Psychiatric Social worker	– 5 hrs
Clinical Psychologist	– 5 hrs
Psychiatrist	– 2hrs

Objectives

1. Students should develop positive attitude towards Mental Health & Mental illness.
2. Describe the Psychopathology & Clinical manifestation of Mental Illness.
3. Establish therapeutic relationship with clients.
4. Provide nursing care to Psychiatric Patients.
5. Identify the role of Psychiatric Nurse in different settings.

GENERAL AWARENESS AND ROLE OF NURSES IN THE FOLLOWING TOPICS

i.) Introduction

History of Psychiatry

Epidemiology Current trends

Mental health (Definitions, Criteria, Contributing factors)

- Personality Development
- Psychoanalytic theory
- Psycho Social Theory
- Interpersonal Theory
- Behaviouristic theory
- Stress & Adaptation
- Defense Mechanism

ii.) Introduction

1. Introduction to Psychiatric Nursing

- Role of Psychiatric Nursing
- Theoretical approaches to Psychiatric Nursing

iii) Psychiatric assessment

- Case taking
- Interview technique
- Therapeutic – Nurse client relationship
- Mental status examination
- Nursing diagnosis

- Care plan

Process recording

IV) Treatment of Psychiatry

- Psycho – Pharmacology
- ECT
- Other therapies

Nurses role : in administration of psychopharmacological agents

- Caring patients undergoing ECT
- Psycho social therapies
- Psychotherapy
- Behavior therapy
- Family therapy
- Occupational therapy

vi) Etiology

- a. Organic Mental disorders
- b. Schizophrenia & Delusional disorders .
- c. Mood (Affective Disorders)
- d. Substance Abuse Disorder
- e. Neurotic Stress related & somatoform disorders
- f. Personality Disorders
- g. Sexual Disorders
- h. Eating Disorders
- i. Mental retardation
- j. Childhood disorders
- k. Psychiatric emergencies

viii) Psychiatric Rehabilitation

Community Psychiatry

Role of the psychiatric nurse in rehabilitation

Community psychiatry

Approaches , levels of prevention principles

National mental health programme.

ix) Legal aspects & future challenges

-Mental health act

-Legal aspects responsibility of the Psychiatric nurse

-Future challenges in psychiatric nursing

-Admission & Discharge of Mentally ill patients

CLINICAL FACILITIES

1. Psychiatric departments in affiliated Hospitals
2. Observation visit
 - School for mentally retarded children
 - Psychiatric rehabilitation centre
 - Geriatric old age home .

DEMONSTRATION
