The test will be a computer based online test conducted by BITS Pilani at dedicated centers at different cities of India. Computer based online test means the candidate sits in front of a computer and the questions are presented on the computer monitor and the candidate submits the answers through the use of keyboard & mouse. Each computer is connected to a server, which prepares the question set and delivers it to the candidate on the computer. **The test are planned to be conducted will be conducted during 31st May– 1st June 2014 and the candidate can choose the center to take the test as prescribed in later sections.**

### Details of online Test:

**Test I:** Duration: 60 Minutes. Total No of questions: 60

Test I is compulsory for all students who are applying for any of the higher degree programmes of the Institute and will consist of the following sections

Sections	No. of Questions
Core Mathematics	15
Core Physics	15
English Language Skills & Principles of Management	15
Computer Programming	15
<b>Total</b>	<b>60</b>

The course descriptions are available in the syllabus given later in the brochure

**Test II:** Duration: 120 Minutes. Total number of questions: 100

Test II is compulsory for Students applying for all higher degree programmes except those who are applying for only Software systems. The Test II subject for a student is based on his/her qualifying degree programme. This paper will attempt to test student's grasp of the basic subjects of his discipline. The discipline courses of different degree programmes of BITS have been used for constructing the questions. The course descriptions are available in the syllabus given later in the brochure

**Special Test for Software Systems:**      Duration 60 Minutes      Total number of questions: 50

This Special aptitude test for Software Systems is required for only those students who are applying for M.E. Software systems. The course descriptions are available in the syllabus given later in the brochure.

For all the above tests all questions are of objective type (multiple choice questions); each question with four answers choices only one being the correct choice. Each correct answer fetches 3 marks, while each incorrect answer has a penalty of 1 mark. No marks are awarded or deducted for questions not attempted. While the candidate can skip a question, the computer will not allow the candidate to choose more than one option as the correct answer.

The questions will be selected at random from a large question bank. Different candidates will get different question sets. An expert committee will ensure that the question sets are of comparable difficulty level, content, question type etc. In this matter the decision of the expert committee will be final and binding on the candidate.

All the questions and instructions of the test will be in English only.

**Each candidate who registers for test will be required to download a 'Hall Ticket' from the website during 25<sup>th</sup> May – 30<sup>th</sup> May 2014.** Candidates with the hall ticket only will be allowed inside the test centers. Candidates should bring a pen for the purpose of rough work, signing etc. Blank sheets for rough work will be provided, if required. **Candidates can bring a calculator without any network connectivity/programmable feature. Candidates are not allowed to bring any other personal belongings such as mobile phones; ipods or any other electronic gadgets**

All centers are closely monitored for security and candidates' identity and activities will be recorded using web cameras and/or closed circuit TV cameras. Anyone violating the rules of the test center will not be allowed to continue with the test and will be automatically disqualified.

On completion of the test, the computer will display to each candidate his/her score obtained.

**A candidate can submit only one form for Higher Degree Admissions. However if a candidate discovers any mistake in the form submitted by him, he can submit a second application form duly completed before the last date, indicating on the top of second application form that his first application form (giving its number) should be cancelled. In such cases, the second application has to be accompanied by a fresh application fee.**
